

## Used Cutter Suction Dredger with Warman Dredge Pump: Available for Sale

### **Used Cutter Suction Dredger for Sale: High-Performance Equipment with Warman Dredge Pump**

We are pleased to present a remarkable used cutter suction dredger that is now available for sale. This exceptional dredging equipment is equipped with a Warman 10/08 FG dredge pump, ensuring efficient and effective sand extraction. The Scania DS11 engine, boasting 300 horsepower, provides the main propulsion for the dredger, while a Deutz engine with 100 horsepower powers the auxiliary drive for the hydraulics and jet installation.

With a dredging depth of 12 meters for both the cutter and jet, this dredger offers excellent versatility for various dredging projects. Additionally, a booster station is included, featuring a Scania DS11 engine and a 10-inch FGH Warman dredge pump. The booster station is conveniently controlled through the Risco mobile application, enabling easy regulation of RPM, start and stop functions.

The dredger comes complete with a spud carrier, enhancing stability and maneuverability during operations. Furthermore, registration papers for inland use are available, ensuring compliance with regulatory requirements.

To facilitate seamless operations, this package includes approximately 2 kilometers of 10" HDPE pipes. These durable pipes are essential for efficient sand transportation.

For a more comprehensive understanding of this exceptional used cutter suction dredger, we invite you to request additional pictures and information. Don't miss out on this opportunity to acquire a reliable and high-performing dredging solution.
