

Reliable second hand Dredger for Sale – Fully Refurbished and Repaired in 2022

Looking for a top-quality dredger that has been renewed, restored, repaired, and improved to function like new? Look no further! We are offering a used dredger for sale that has undergone extensive refurbishment to ensure that it is in excellent working condition.

This second hand dredger has been restored and repaired in 2022 to meet the highest standards, with improvements and upgrades made to make it function like new. It consists of a 1x Mainpontoon measuring 8.0 meters by 2.5 meters and 2x Side Pontons measuring 11.0x1.0x1.0 meters, with a draft of 0.90 cm. The dredger was manufactured in 2015, and since then, it has been renewed and upgraded to ensure optimal performance.

Equipped with a Warman gravel dredge pump 10-8 F HG, this dredger is capable of efficiently dredging 20% sand/gravel, with a capacity of approximately 200-250 CBM per hour. It can dredge up to 10 meters deep at a rate of 250 CBM per hour (6.5-7 Bar) and up to 15 meters deep at a rate of 200 CBM per hour (6.5-7 Bar).

This used dredger for sale has been upgraded and improved to perform at its best, with a Mercedes 420 PK Engine, Dongi transfer case, and a Daf 1160 engine met Stork WaterJetpomp @ 7 Bar 400 CBM.

Do not miss the chance to own a secondhand dredger that has been renewed, restored, repaired, and upgraded to meet the main standards of performance. Contact us today to arrange a viewing and see for yourself the exceptional quality of this second hand dredger for sale.
